-E: 125KHz Proximity Card Reader   -M: 13.56MHz Mifare Card Reader

Introduction:

MAR6/8 is a Metal vandalproof contact-less proximity card wiegand26 reader with very beautiful design, support EM, or MIFARE proximity cards, is one of the most advanced access control reader, using a unique design, smart panel operation, built-in high-end microprocessors, high anti-interference ability and high security and reliability, can provide strong security. It has ultra-low power, Wiegand output, easy to use, can be widely used in homes, offices, residential quarters and other public places.

Features:

1) Low power consumption: standby current less than 50mA.
2) Wiegand output: support WG26
3) Easy to install on Metal Door Frame or Mullion.
4) Indoor / Outdoor Operation.
5) Waterproof IP65

Technical Specification

Read Range: -E Up to 10CM; -M Up to 5CM
Output Format: -E: 26bit Wiegand (default)
Work Voltage: DC12V±10％
Static Current: ≤50mA
Reading Range: 3～10cm
Ambient Temperature: -25℃～85℃
Ambient Humidity: 10%～90%
Index of Protection: IP65
Size: MAR8:120*80*25mm; MAR6: 120*56*18mm
